

Belief in ZERO Harm Monthly Awards

December 2008

Team Winner

Nominated:	Northfields Contracting
Nominated by:	Jeremy Mortelman
Reason	During the Christmas New Year period we were given the task of exposing the gas supply lines for an integrity check. I was impressed to see a new contracting team on site paying such attention to detail in relation to safety and the task of working on a live gas line in a confined space environment. Some of the crew had only just completed their CSE and Sentry training but the way the job was carried out you would have thought that they had been doing similar work for a long time. Additional to this was that the work was carried out in 34 plus degrees for the 5 days, out in the open, and it is testament to the team that there were no injuries or incidents.

Our Journey to ZERO Harm
